### Town of Sunapee Regulation of use of grills on public property

Under the authority vested in them by New Hampshire Statute 41:11 the Selectmen of the Town of Sunapee hereby establish the following regulation relating to use of grills in the public ways owned by the Town of Sunapee.

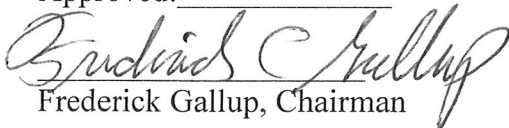

The Board of Selectmen wishes to allow the public a safe and friendly area in order to grill by use of propane or charcoal grills. All grilling by either gas grill or charcoal grill shall be prohibited in any location in the public ways owned by the Town of Sunapee with the exceptions as follows; specific areas are designated at Tilton Park, Georges Mills Beach and Dewey Beach for this purpose. The Town of Sunapee will provide a commercial charcoal grill and bucket for the safe disposal of remains at each location. Propane grills may be brought into these locations, and shall be used only in the area provided, for the general public's safety. In addition, grilling at Veterans Field with propane grills only will be allowed under the direction of the sporting event organizer, usually the Town Recreation Director or the School Athletic Director.

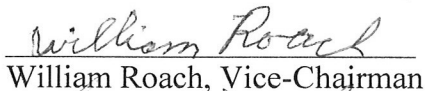

From time to time it may be necessary to prohibit these actions due to extreme dry conditions. If this were to occur, designated areas will have signs prominently posted.

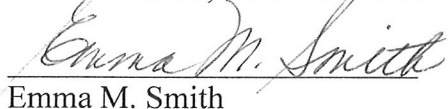

Under this policy, groups of 25 or more persons shall be required to file a use of recreation facility application and get approvals prior to the event. This application is to help resolve conflicting schedules as well as traffic control for the event.

The Board of Selectmen may from time to time set hours of operation for this purpose as a courtesy to neighboring properties.
